EDUCATION

G.H. Raisoni College of Engineering and Management, Wagholi, Pune

2023 – 2027

B.Tech in Information Technology — **CGPA: 9.33/10**(Pursuing)

Pune, India

COURSEWORK

- Data Structures & Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Database Management Systems (DBMS)
- Computer Networks
- Operating Systems
- Machine Learning (Basics)

PROJECTS

AI Resume Builder [↗](#)

- Developed a full-stack **MERN application** with JWT/bcrypt authentication, RESTful APIs, and MongoDB schema supporting dynamic resume templates, custom layouts, and public/private sharing controls.
- Integrated **Gemini-powered AI** to enhance resume content and built an image editor with **background removal** using React Easy Crop and ImageKit for generating professional headshots.

Real-Time Blood Bank & Hospital Coordination System [↗](#)

- Built a full-stack platform enabling **real-time blood request and response** between hospitals and blood banks, improving emergency coordination efficiency.
- Developed key features including **blood inventory management, request tracking, and monthly billing**, with a scalable backend and responsive UI.

Quick.ai [↗](#)

- Developed a production-ready AI SaaS application serving multiple content-generation and image-processing workflows by integrating **LLMs, computer vision APIs, authentication systems, and cloud-based storage solutions**.
- Designed and deployed a scalable full-stack architecture using **React, Express.js, PostgreSQL, and Clerk**, featuring premium subscriptions, AI-powered resume reviews, community publishing, and real-time user dashboards.

INTERNSHIP

Infosys Springboard [↗](#) **AI/ML Intern**

Aug 2025 – Oct 2025

- Designed and developed **AI TraceFinder** [↗](#), an AI-powered forensic system for document forgery detection and scanner source identification using machine learning and deep learning techniques.
- Implemented **XGBoost and CNN ensemble models** and deployed a **Streamlit web application** for real-time document authenticity verification and predictive analysis.

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS, JavaScript, Tailwind, React
- **Backend & Programming Languages:** Java, Python, Node.js, Express.js, SQL, MongoDB
- **Tools & Technologies:** Docker, GitHub

EXTRACURRICULAR

- Winner – Smart India Hackathon (Internal Round, 2025)
- Top 50 – Blind Coding Competition
- Top Performer – NPTEL (Ethical Writing)

CERTIFICATIONS

- Google Cloud Associate Engineer – Google Cloud (2025) [↗](#)
- Fullstack web development [↗](#)
- Java [↗](#)
